Moamal Al-Adili

Graduate Project Manager

Moamal9@gmail.com | Manchester, United Kingdom | moamal9-max.github.io | CAPM | MIET

PROFESSIONAL SUMMARY

MSc Project Management graduate (Merit, CAPM) with a BEng in Aeronautical Engineering. Architected a Python tool that audits schedules against the DCMA 14-point assessment, benchmarked on hand-calculated baselines with 2,100+ automated tests. Authored the RACI matrix presented to senior Airbus representatives; directed about 25 agents against SLA targets at DNATA. Experienced in budget variance tracking and statutory compliance auditing at Simtrava.

EDUCATION & PROFESSIONAL CERTIFICATIONS

Certified Associate in Project Management (CAPM), *Project Management Institute* 2026

MSc Project Management (Merit), *University of Liverpool* 09/2024 to 12/2025 | Liverpool

- Modules: Business Analysis; Project and Portfolio Management; Executing, Controlling and Closing Projects; Strategic Operations Management; Enterprise Systems with SAP

BEng Aeronautical Engineering (2:1), *University of Salford* 2019 to 2023 | Manchester

- Modules: Engineering Management; Design and Analysis; Aerodynamics Propulsion Systems; Avionics

PROFESSIONAL EXPERIENCE

Property Coordinator, *Simtrava* 03/2025 to Present | Manchester

- Monitored maintenance expenditure against allocated budgets across stores and reported variance to the Property Manager.
- Audited statutory and legal compliance certification records across multi-site stores.
- Coordinated external contractors and scheduled repair jobs on Access Maintain for the Property and Maintenance Managers.
- Triaged maintenance requests between store teams, Regional Managers and contractors.
- Coordinated administration for new store opening (NSO) and renewal projects.

Junior Business Manager, *DNATA* 12/2023 to 07/2024 | Manchester

- Directed daily ramp and cargo logistics within aviation safety regulations and project timelines.
- Led and coached about 25 operational agents, enforcing SLA targets through regular performance feedback.
- Resolved bottlenecks through root-cause analysis; served as point of contact for airline and airport audits.

TECHNICAL & ENGINEERING PROJECTS

Project Controls & Schedule Quality Engine, *Python*, *SQLite*, *Streamlit*, *LLM integration*, *TDD* 09/2026 to Present

- Architected a tool that runs ten checks adapted from the DCMA 14-point assessment with deterministic arithmetic, listing the activity IDs behind each finding.
- Verified LLM-drafted risk, issue and assumption entries by verbatim quote-to-source matching and named-person sign-off before recording.
- Benchmarked against hand-calculated expected results written before any code, with 2,100+ automated tests on synthetic schedules.

Project Consultant, *Airbus Project Management Challenge* 01/2025 to 07/2025

- Authored a stakeholder analysis and RACI matrix setting out governance and accountability for a cross-border retention strategy.
- Audited communication gaps behind project delays by root-cause analysis; presented recommendations to senior Airbus representatives.

EnergySim Pro, *Python*, *OpenStudio*, *EnergyPlus*, *LLM integration* 05/2026 to Present

- Extracted tables, schedules and specifications from PDF design documents with an LLM and mapped them into an EnergyPlus model, with each value confirmed by a person.
- Reconciled outputs against source documents on a synthetic seven-zone commercial office (occupancy, ventilation, HVAC targets).

Co-Founder & Operations Lead, *Platinum Events* 2021 to 2023 | Manchester

- Managed finances and budgeting; directed logistics, volunteers and safety compliance for 10+ large events and raised £5,000+ for charity.

SKILLS

Project Controls & Governance: Schedule integrity (DCMA), risk registers, RACI matrices, EVM, SLA management, change control, budget variance tracking, stakeholder engagement

Technical & Software: Python, deterministic data pipelines, SQLite, Streamlit, automated test suites, document parsing, LLM integration, AI-assisted development

Enterprise Tools & Platforms: Excel, Power BI, MS Project, Jira, Access Maintain, SAP, SharePoint

Languages: English (Fluent), Arabic (Native)

MEMBERSHIPS & OUTREACH

Member, Institution of Engineering and Technology (MIET) | STEM Ambassador | Peer Mentor, International Student Support
